SYLVESTER WILLIAMS, of Robertson County, has been arrested at Paris for maliciously firing his pistol at one of the trains on the M. and L. branch of the Kentucky Central. It appears that while a passenger on the train he persisted in standing on the platform and shooting his pistol, when Conductor John Martin put him off at Tarr's Station. As the train moved off he fired five shots into it, one shot striking the door of the rear car and one just above the door.

Fence-Loek.
Concerning the new "fence-lock" advertised elsewhere, the Columbia (Mo.) Herald, says: There is one feature of the wire fence-lock business which we think will be generally conceded as distinguishing it from any like invention that has appeared in this section. That is the readiness with which it is taken by that class of persons who are accustomed to look with suspicion upon "patents" or new inventions. Our people are constitutionally conservative and take hold of "new-fangled" things with slowness and caution, and it is rare indeed that any change in the old order of things meet with their ready approval. But it is true of the wire fence-lock that within a few months it has been invested in by numbers of our most solid and cautious business men and for the past few weeks the demand for State and County rights has almost exceeded the ability of the proprietors of the invention to supply. The most timid capital has taken hold of it with avidity. Its simplicity and practicability are so apparent that any discerning business man perceives them at once. The fact is that we have never known an invention to leap so rapidly and firmly into public favor.

More Infant Desperadoes.
OIL CITY, March 11.—A desperate gang of cowboys, ranging in age from seven to twelve, has been broken up at Franklin. These desperadoes had planned to leave for the West in a few days, and, under the command of their Captain, a noted ruffian called Deadwood Jim, aged eleven, each boy was to poison his mother ere departing. One seven year old lad, named Jim, fearing that his mother might suffer too much, agreed with D. Jim to poison the servant girl first. The latter party happened to overhear the conversation and reported it. As a result the cowboys, by a large majority, now take their provender in a perpendicular attitude. Burst slippers, broken harness straps and split shingles are a drug in the Franklin market, while the demand for amika for strained arms is booming.

KENDALL'S SPAVIN CURE

The Most Successful Remedy ever discovered as it is certain in its effects and does not blister. Read proof below.

Kendall's Spavin Cure.

SANTA ROSA, California, Feb. 9, 1883

B. J. KENDALL & Co., Gents.—I feel it a duty to others suffering with the piles and failing of the rectum to write to you. I have had the piles and prolapsus of the rectum for five years, for the past three years I have suffered with the most agonizing pain. I tried everything without relief, but after ten days' use of Kendall's Spavin Cure, I have not seen or heard of the piles since. One who has not suffered as I have cannot comprehend the great joy that I felt at being cured of a disease almost worse than death. I had a valuable young horse that had a large bunch gather on his breast bone. I tried all kinds of treatments and had it cut open without any benefit. Saw your advertisement and bought a bottle of Kendall's Spavin Cure and ordered my teamster to use as directed. In less than one week the lump had disappeared. Thinking that a liniment that would do what Kendall's Spavin Cure has done for my horse might benefit more, I tried it as a last resort. With gratitude and best wishes for your success, I am faithfully yours,

J. H. GLENN.
